+91 9958671510 | shrijit.work7@gmail.com | [GitHub](#) | [LinkedIn](#) | [LeetCode](#)

Full-Stack Engineer experienced in building AI-integrated recruitment and enterprise platforms with React.js, Node.js, and TypeScript, with a track record of measurable gains in automation, performance, and user engagement.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python

Frameworks & Libraries: React.js, Node.js, Express.js, Next.js, Redux Toolkit, Tailwind CSS

Databases: MongoDB, PostgreSQL, SQL

Tools & Platforms: Docker, AWS (EC2), Git

Core Concepts: Data Structures & Algorithms, RESTful APIs, JWT Authentication, SDLC

EXPERIENCE

RapidData.io Jul 2025 – Dec 2025

AI Integration Engineer Noida / Remote

- Developed Taloshire AI, a recruitment platform, using React.js, TypeScript, and Tailwind CSS to deliver a high-performance, responsive UI.
- Integrated Unified.to to synchronize candidate data across multiple ATS platforms, reducing manual data entry by 40%.
- Built Node.js backend services to process resumes via OpenAI APIs, automating the candidate screening workflow.

Delta May 2024 – Jun 2025

Full Stack Engineer Noida

- Built responsive user interfaces with React.js and TypeScript, contributing to a 20% increase in session duration.
- Architected and maintained REST APIs in Node.js, ensuring reliable communication between the frontend and legacy databases.
- Containerized application services with Docker and managed application state using Redux Toolkit for consistency across environments.

Parsvnath Developers Apr 2023 – Jul 2023

Database Intern New Delhi

- Optimized SQL queries for real-time reporting dashboards, improving report generation speed by 30%.
- Supported migration of 10,000+ records to a modernized database system, validating data integrity post-migration.

PROJECTS

TripTribe – AI-Powered Travel Planner [Live](#) | [Code](#)

- Built an AI-powered itinerary generator with React.js and Node.js, using OpenAI for logic-based trip planning.
- Implemented secure authentication with JWT, HTTP-only cookies, and role-based access control.
- Deployed on AWS EC2 with NGINX as a reverse proxy to handle production traffic.

CoinTrack – Crypto Analytics Dashboard [Live](#) | [Code](#)

- Built a real-time dashboard with React.js and Chart.js to visualize cryptocurrency market trends.
- Integrated third-party market-data APIs with caching strategies to prevent rate-limiting.

ACHIEVEMENTS

- Winner, OSDC Hackathon 2021 — built an award-winning travel-tech solution in a 24-hour sprint.
- Solved 400+ Data Structures & Algorithms problems across coding platforms.
- Certified: The Complete 2024 Web Development Bootcamp (MERN Stack).

EDUCATION

Jaypee Institute of Information Technology 2020 – 2024

Bachelor of Technology, Electronics & Communication Engineering
